

12 SEP 1979

MEMORANDUM FOR: Director of Personnel
FROM: Robert W. Gambino
Director of Security
SUBJECT: Access to EAA Recreation Facility
for Joggers
REFERENCE: Memo from D/Pers, dated 26 July 1979,
same subject
(Pers 79-4614)

1. The Office of Security has no objection to the establishment of a second gate in the perimeter fence adjacent to the gate used by the Bureau of Public Roads (BPR) employees. The BPR gate is currently manned by a Federal Protective Officer (FPO) from 1145 to 1315 hours each Monday through Friday, excluding holidays.

2. The use of the EAA Recreation Facility by joggers is a positive step in eliminating potential safety problems. As a further inducement, we are prepared to lengthen the current 90 minutes of operation to a full 2-hour period (1130 to 1330 hours) for each day, Monday through Friday, except holidays.

3. It is requested that your office obtain our specific security requirements for construction of perimeter gates when a final decision to proceed with the project is made.

5) I'd like you to take on this project. Phil should be able to put you in STATINTL touch with the man on [REDACTED] staff that prepared this plan. Among the things to be done are:

- a. Ask R&D to prepare plans and cost estimates.
- b. Determine "best" running surface.
- c. Obtain funding.
- d. Get input from runners.

I have attached the facilities study which is the basis for the government paying the costs.
